• Air Rifles • Lee Enfield • Pre-charged Pneumatic • .177

Description

The Aircuda Max is a brand new, multi-shot PCP Air Rifle, co-branded with JTS®, its American designers and Lee Enfield (Guns) Ltd., Their UK partners. We have worked with the founders of JTS® of Katy, Texas for over a decade, and they have been our manufacturing partners for many of our most successful products, including the AirForceOne® Tornado gas ram pistol and the Lee Enfield SENTRY PCP Air Rifle. So, when they first reached-out to us with details of their new PCP, the Aircuda Max, we were excited to get involved in developing it to meet the demands of the 12ft/lbs UK market. We are delighted and enthusiastic about the rifle we have co-created-and so, we hope, will be UK shooters too.
